

Equipping others to stand with hope in Jesus Christ

Testimonial:

July 31, 2006

I wanted to give some personal feedback from us ..and our company.

Tim has been working with us since May. Standing With Hope (our organization) provides artificial limbs to developing countries ...and we teach them how to help their own people. We are currently partnering with the government of Ghana, West Africa, and not only training their workers...but supplying them with ongoing prosthetic development inventory.

Since working with Tim, his mentoring and guidance has helped Standing With Hope realize a budget increase of six thousand dollars in less than 45 days. That is directly tied to Tim's efforts. We are small non-profit organization, and it is due to Tim's expertise and coaching that we feel our company has turned a major corner in every area ...including focus, mission, and strategic business relationships. Our effectiveness as a company has increased dramatically, and our impact nationally and internationally has accelerated due to Tim's direct involvement. All of this can be documented from our work with Tim in the last two months.

I, without any reservations, recommend Tim Cummings to you as a powerful and valuable asset to your company. Working with Tim, you will find in a very short amount of time, that your ability to grow ...and sustain that growth ..will substantially increase.

But the greatest benefit to us, and we feel to you as well, is that Tim's mentoring allows us accomplish the dreams and vision that we have ...in a powerful and effective way.

I wouldn't recommend anything to you that I couldn't back up. Please feel free to contact me if you have any questions. Tim's the real deal, and he has really made an impact on our company.

Sincerely,

Peter W. Rosenberger
President,
